Commission artwork price & detail list

Notes:

- All the options below are framed, mounted and ready to hang. Only 100% archival and lightfast materials are used. For long term preservation, oil paintings are additionally varnished with an eggshell or satin finish, and colored pencil paintings and graphite drawings are protectively sealed with a transparent, matte or satin finish fixative. Optionally, a mat and/or plexiglass or glass layer can be added to a drawing for extra safety/presentation.
- I usually choose an eggshell-finish, black wood frame because it tends to look good with many colors and styles of work, as well as home decoration. However, many options for frame widths, styles and colors (or none, if you'd rather do it yourself) are available- just let me know if you prefer something else.
- If you want, you can let me know a particular existing piece of mine whose general mood you'd think the commission should be similar to.
- I'm primarily an oil painter but I also work with other mediums. Please let me know if you'd like to see samples of any of the types of piece below, or if you're interested in something which is different from the list below either by way of size or of medium.
